

FRESHMASTER[®] by JAS WELDING[®]

...it's **by far** the
safest way to weld!

www.jas-welding.com

... the safest way
to weld, by far!

- CE certified
- TH3PSL protected
- Highest Colour Fastness
- Smart Air Supply
- Multiple Warning Levels
- Bluetooth Remote
- Virus Protection
- Longlife-battery

We are facing major new challenges in the world of work. Jobs are changing.

„Working Distance“ – greater distances between employees and therefore better protection against infection.

Well-known problems and legal requirements such as TRGS 900 must also be solved at the welding workstation:

- Reduction of the fine particulate matter limit down to 1,25 mg/m³
- Eye protection
- Heat protection
- Protection against welding and grinding spatter
- Protection against carcinogenic particles

With the new welder's respiratory protection combination Freshmaster® 513 + Freshmaster® P3, you will now be able to weld safely from now on!

Outstanding features will inspire and convince you:

- Complete protection level range from DIN 3.5 / 5-9 & 9-133
- *True-Color-Technology*
- Optional settings for sensibility and sensitivity
- Grinding mode
- *best ratings 1/1/1*
- *3 years warranty on the autodarkening filter*
- Infinitely adjustable *Bluetooth-Remote*

In connection with the Freshmaster® P3 respiratory protection system:

- tested combination with *TH3PSL*
- Protection against carcinogenic particles
- *Virus/Corona protection*
- *Smart air supply* with 3 fan speeds
- Rechargeable long-life battery with 14-hour performance at 170 liters / min.
- optical, acoustic and *vibration alarm*
- 1 year warranty

Bluetooth-Remote

Comfort-headband, extra light and ergonomic
