The choice  
is yours!

**FRESHMASTER**<sup>®</sup>  
FLIPAIR

by **JAS**  
WELDING<sup>®</sup>

... best way to  
work **by far!**

**We are facing major new challenges in the world of work. Jobs are changing.**

**„Working Distance“ – greater distances between employees and therefore better protection against infection.**

Some of the advantages of our models:

- Reduction of the fine particulate matter limit down to 1,25 mg/m<sup>3</sup>
- Eye protection
- Heat protection
- Protection against welding and grinding spatter
- Protection against carcinogenic particles

**With our new respiratory protection systems in combination with one of our models FlipAir and VisoAir, you will be able to work safely from now on!**

**Outstanding features for our new head shields!**

**Freshmaster® FlipAir:**

- 3 protection level ranges to choose from: DIN 2/8, 3/8 or 5/8
- Especially suitable for gas-welding and plasma cutting
- Large field of view

**Freshmaster® VisoAir:**

- Comfortable eye and face protection
- Protection against mechanical and chemical hazards
- Clear view with a large visor
- Perfect for grinding

**In connection with our respiratory protection system:**

- tested combination with **TH3PSL**
- Protection against carcinogenic particles
- **Virus/Corona protection**
- **Constant air supply** with 3 blower levels
- Rechargeable long-life battery with 14 h performance at 170 liters / min.
- optical, acoustic and **vibration alarm**
- 1 year warranty
